

AF2000-R (RECIRCULATION)

CERTIFIED

HEPA AIR PURIFIER

For healthcare facilities, waiting rooms, offices and residences

MULTI-STAGE FILTRATION SYSTEM

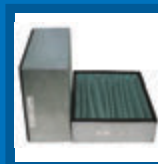

CLEAN AIR is the key factor in creating a safe environment for patients and staff

The hospital and healthcare environments require high quality air management solutions to protect patients and staff against infections and occupational diseases.

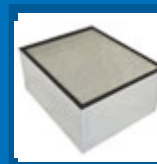

Our units offer proven air purification solutions against airborne contaminants, chemicals and odors.

F001 Prefilter

F014 Pleated Filter

F052 HEPA Filter

Air Flow:	Nominal 472 l/s / 1000 CFM
Voltage:	120V (4A) or 230V (2A)
Dimensions:	71" H x 24" W x 26" D / 180cm x 61cm x 66cm
Filtration:	2" Pre-filter MERV10 12" High capacity pleated filter MERV12 12" Medical grade HEPA filter 99.97% at 0.3 µm <i>Optional: Chemical filter (up to 90 lbs / 41 kg) 6" Certified HEPA filter 99.99% @ 0.3 µm</i>
Inlet:	Bottom inlet
Discharge:	Adjustable recirculation grille
Sound Level:	Whisper quiet, 56 dBA <i>Optional: silencer to further reduce the sound level</i>
Controls:	Digital speed control, audible and visual alarms OPTIONAL: Remote ON/OFF and communication

PRODUCT HIGHLIGHTS

- High volumetric flow rate
- Whisper quiet operation
- Filtration system: prefilter, high capacity and HEPA filter
- Intelligent controls, digital speed control, audible and visual alarms
