Keystone KeyCast	– purple	1kg

3D PRINTERS

ACCUFAB L4D

- **4K resolution**
- Add printing capacity affordably and without compromise
- Small and large build plates/resin vats for maximum efficiency and flexibility
- Free slicing software with no annual license fees
- Free add-on modules for model, bite splints and crown design
- Resin vat lifespan controlled by user - not via RFID chip
- Large selection of pre-validated resin profiles as well as ability to create custom profiles

ACCUFAB CEL

- **6K resolution**
- Add printing capacity affordably and without compromise
- Small and large build plates/resin vats for maximum efficiency and flexibility
- Free slicing software with no annual license fees
- Free add-on modules for model, bite splints and crown design
- Resin vat lifespan controlled by user - not via RFID chip
- Large selection of pre-validated resin profiles as well as ability to create custom profiles
- Print chamber temperature control/heater

SHINING 3D
DENTAL

SONIC 4K XL PLUS

- 4K resolution
- Large capacity build-plate
- Free dental-context slicing software with no annual license fees
- resin vat lifespan controlled by user - not via RFID chip
- Large selection of pre-validated resin profiles as well as ability to create custom profiles

3D PRINTING ACCESSORIES

LIGHT CURING

SHINING 3D FABCURE 2

- LED Power 70W
- Large curing chamber
- Built-in heater
- Pre-set curing times by resin type/brand
- Programmable for custom strategies

SHINING 3D FABCURE 1S

- LED Power 30W
- compact footprint where space is limited

WASHING

PHROZEN WASH +

- Two compartments for simplified two-stage cleaning of printed parts
- Programmable washing cycles
- Designed to accommodate build-plate from XL 4K printers or place printed parts into reservoirs

SHINING 3D FABWASH

- Pre-programmed 'wash and dry' cycles
- Single compartment with 9.5L capacity
- Designed to accommodate build-plate from Acccufab L4D, CEL and D1S printers or place printed parts into reservoir
- Automatic part removal from Accufab L4D, CEL and D1S build plates

DESKTOP SCANNER

SHINING 3D DS-EX PRO H

- **Scan accuracy 8μm**
- **Dual 5.0 MP cameras**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Seamless integration with exocad CAD
- Multiple scan modes
- Supports full-size articulators and impression scanning

SHINING 3D DS-EX PRO

- **Scan accuracy 10μm**
- **Dual 1.3 MP cameras**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Seamless integration with exocad CAD
- Multiple scan modes
- Supports full-size articulators and impression scanning

DenPlus

1-888-344-4424

INTRA-ORAL SCANNER

SHINING 3D AORALSCAN 3

- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Two scanner tips sizes. Tips autoclavable up to 100 times.
- Software includes free model creation and temp design modules

SHINING 3D AORALSCAN 3 WIRELESS

- **Wireless IOS**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Two scanner tips sizes. Tips autoclavable up to 100 times.
- Software includes free model creation and temp design modules

FACE SCANNER

SHINING 3D METISMILE

- 10 seconds to acquire complete facial scan
- Free scanning software with no annual license fees
- STL, OBJ and PLY scan file formats
- Aligned scan files easily imported into all CAD design software
- Optimized for exocad CAD

MILLABLE MATERIALS

PMMA DENTURE BASE

DenPlus Estética Base (98mm)   **– pink veined**
