4.1 Description of first aid measures

Inhalation	IF INHALED : Move to fresh air. If not breathing, give artificial respiration. If respirator irritation, dizziness, nausea or unconsciousness occurs, get medical attention.
Skin Contact	IF ON SKIN: Wash contact area with soap and water. Remove contaminated clothing. Launder contaminated clothing before use.
Eye Contact	IF IN EYES: Immediately flush thoroughly with water. Remove contact lenses, if possible. If irritation occurs, get medical attention.

Ingestion IF SWALLOWED: DO NOT induce vomiting. If victim vomits, risk of aspirations. Ensure breathing passages are not obstructed. Pulmonary failure possible after aspiration of vomit. Call a physician immediately

4.2 Most important symptoms and effects, both acute and delayed

Most important known symptoms and effects are described in section 2.2.

4.3 Indication of any immediate medical attention and special treatment needed

No data available

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

In case of fire, use water spray, carbon dioxide (CO₂), spray foam, dry powder.

5.2 Special hazards arising from the substance or mixture

Combustible. Vapors are heavier than air and may spread along floors. Form explosive mixtures with air at elevated temperatures. Development of hazardous combustion gases or vapors possible in the event of fire.

5.3 Advice for firefighters

Wear self-contained breathing apparatus for firefighting is necessary.

5.4 Further information

Remove container from danger zone and cool with water. Prevent fire extinguishing water from contaminating surface water or the ground water system.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all source of ignition. Avoid contact with skin and eyes.

6.2 Environmental precautions

Avoid release to the environment and do not let product enter drains. Risk of explosion.

6.3 Methods and material for containment and cleaning up

Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions. Take up carefully with liquid-absorbent material (e.g. Chemizorb®). Dispose properly. Clean up affected area.

6.4 Reference to other sections
