

SAFETY DATA SHEET (SDS) PREMIUM TRAY

1. IDENTIFICATION

Product Name: Acrylic resin Premium Tray
Other Name or Code: 1121112, 1121113, 1121114, 1121115
1121212, 1121213, 1121214, 1121215
1121312, 1121313, 1121314, 1121315
Use: Dental custom trays
Supplier Name: DenPlus Inc.
Address: 333-M Chemin du Tremblay
Boucherville, QC, Canada, J4B 7M1
Phone Number for Information: 450.641.1330
Emergency Phone Number: 613.996.6666
Anti-Poison Center of Quebec 1.800.463.5060

2. HAZARDS IDENTIFICATION

2.1 Classification

Skin sensitization – Category 1 H317 May cause an allergic skin reaction
Combustible dust

2.2 Label elements

Signal word: Warning

Hazard statements: H317 May cause an allergic skin reaction
May form combustible dust concentrations in air

Precautionary statements: P261 Avoid breathing dusts.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P302+P352 IF ON SKIN: Wash with plenty of water.
P333+P313 If skin irritation or rash occurs: get medical advice/attention.

P501 Dispose of contents/container to hazardous waste in accordance with local, state or national legislation. Incinerate under approved controlled conditions, using incinerators suitable for the disposal of flammable organics.

3. INFORMATION ON INGREDIENTS

Polymer beads based on methyl methacrylate, ethyl methacrylate and styrene containing peroxide.

Hazardous ingredients	CAS	Concentration range (in weight)
Dibenzoyl peroxide	94-36-0	0.1 to 1 %
Dicyclohexyl phthalate	84-61-7	0.1 to 1 %

4. FIRST-AID MEASURES

4.1 Description of first aid measures

Inhalation IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell.

Skin Contact IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs, get medical attention.

Eye Contact IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if ill effects occur.

Ingestion IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Obtain medical attention if ill effects occur.

4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.

4.3 Indication of any immediate medical attention and special treatment needed

None necessary.

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

In case of fire, use water spray, carbon dioxide (CO₂), spray foam, dry powder. Do not use water jet.

5.2 Special hazards arising from the substance or mixture

Combustible but not readily ignited. Combustion or thermal decomposition will evolve toxic, irritant or flammable vapors. This product can form flammable dust clouds at elevated temperatures. The minimum ignition temperature of a dust cloud of a similar polymer has been measured at approximately 480 °C.

5.3 Advice for firefighters

A self-contained breathing apparatus and suitable protective clothing should be worn in fire conditions.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Caution – spillage may be slippery.

6.2 Environmental precautions

Avoid release to the environment.

6.3 Methods and material for containment and cleaning up

Collect in containers for disposal using approved dust respirator.

6.4 Reference to other sections

See sections: 8 and 13

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Do not eat, drink or smoke at the work place.

Product as supplied: Avoid contact with eyes. Avoid prolonged skin contact. Unlikely to represent a dust hazard under normal handling conditions.

Dental resins are usually processed in conjunction with reactive monomers and this may require the use of a higher level of protection than the necessary for the polymer itself.

7.2 Conditions for safe storage, including any incompatibilities

Acrylic polymers are supplied in either bags or bulk containers. Keep containers in a clean, cool and dry area away from heat sources. Natural ventilation is adequate.

Storage temperature (°C): Ambient.

Incompatible materials: Polymer contains residual benzoyl peroxide. This may react with oxidizing agents, reducing agents, acids, bases and amines leading to decomposition.

7.3 Specific end use(s)

Production of dental custom trays.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

8.1 Control parameters

Substance	LTEL
Dibenzoyl peroxyde	5 mg/m ³
Dust (total inhalable dust)	15 mg/m ³
Dust (respirable dust)	5 mg/m ³

LTEL: Long-term exposure limit

8.2 Exposure controls

Appropriate engineering controls

Do not eat, drink or smoke at the work place. Provide adequate ventilation, including appropriate local extraction, to ensure that the occupational exposure limit is not exceeded. Consideration should be given to the work procedures involved and the potential extent of exposure as they may determine whether a higher level of protection is required. The following information is given as general guidance.

Individual protection measures

Eye/face protection	Wear eye/face protection. Safety spectacles/goggles/full face shield.
Skin protection	Not normally required, however use of gloves is recommended. Suitability of gloves should be confirmed with glove manufacturer.
Respiratory protection	A suitable dust mask or dust respirator with filter type P3 or FFP3 may be appropriate. In the unlikely event of formation of particularly high levels of dust a self contained breathing apparatus may be appropriate.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	White and colored powder
Odor	Typically methacrylate
pH (Value)	Not applicable
Boiling Point (°C)	Not applicable
Flash Point (°C)	~ 390
Flammability (solid, gas)	Not applicable
Flammable Limits	Not applicable
Vapor pressure (Pascal)	Not applicable
Vapor Density (Air=1)	Not applicable
Solubility (Water)	Negligible
Solubility (Other)	Not applicable
Partition Coefficient (n-Octanol/water)	Not applicable
Auto Ignition Temperature (°C)	~ 465 - 550
Viscosity (mPa. s)	Not available
Explosive properties	Weakly to moderately explosive
Oxidizing properties	Not applicable
Density (g/ml)	1.1 – 1.18

10. STABILITY AND REACTIVITY

10.1 Reactivity

Non-reactive material.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

None known.

10.4 Conditions to avoid

Avoid dust generation.

10.5 Incompatible materials

Polymer contains residual benzoyl peroxide. This may react with oxidizing agents, reducing agents, acids, bases and amine leading to decomposition.

10.6 Hazardous decomposition products

Methyl methacrylate, styrene, dibenzoyl peroxide, dicyclohexyl phthalate, carbon dioxide, carbon monoxide.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Ingestion

Low oral toxicity.

Inhalation

Unlikely to be hazardous by inhalation.

Skin contact

Unlikely to cause skin irritation.

Eye contact

Dust may cause irritation.

Skin sensitization data

Dibenzoyl peroxide , Dicyclohexyl phthalate : May cause an allergic skin reaction.

Contains: (Methyl methacrylate). During normal handling this will not constitute a hazard. If the polymer matrix is destroyed e.g. when the product is dissolved in organic solvent, chemical residues will be released from the polymer matrix. Under these conditions, they may produce an allergic reaction in persons already sensitized.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

This product is predicted to have low toxicity to aquatic organisms.

12.2 Persistence and degradability

This product is non-biodegradable in soil. There is no evidence of degradation in soil and water.

12.3 Bioaccumulative potential

The product has low potential for bioaccumulation.

12.4 Mobility in soil

The product is predicted to have low mobility in soil.

12.5 Results of PBT and vPvB assessment

Not classified as PBT or vPvB.

12.6 Other adverse effects

None known.

13. DISPOSAL CONSIDERATIONS

The waste is considered to be non hazardous. Clean scrap may be reprocessed. Dispose in accordance with local regulations.

13.1 Waste treatment methods

May be disposed of by landfill in accordance with local regulations.

14. TRANSPORTATION CONSIDERATIONS

Not Classified as Dangerous for Transport.

14.1 UN number

Not applicable.

14.2 UN Proper Shipping Name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing group

Not applicable.

14.5 Environmental hazards

Not applicable.

14.6 Special precautions for user

Not applicable.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable.

15. REGULATORY INFORMATION

WHMIS 2015

Canadian Hazardous Products Regulations (SORS2015-17)

Canadian Hazardous Products Act (R.S.C., 1985, c. H-3)

Hazardous Products Information Regulation (Quebec S-2.1, r. 8.1)

16. OTHER INFORMATION

Date of revision : February 13, 2026

The information in this SDS was obtained from sources, which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. We do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
