

D I G I T A L

DIGITAL SOLUTIONS. SUPPORTED.

DenPlus proudly offers a range of solutions for scanning, 3D printing and milling from some of the global leaders in digital dentistry. We've invested in and committed to providing technical support and training for the solutions we sell, ensuring that when dental professionals invest in digital products they implement the technologies quickly, successfully and efficiently.

3D PRINTERS

SHINING 3D
DENTAL

ACCUFAB L4D

- **4K resolution**
- Add printing capacity affordably and without compromise
- Small and large build plates/resin vats for maximum efficiency and flexibility
- Free slicing software with no annual license fees
- Free add-on modules for model, bite splints and crown design
- Resin vat lifespan controlled by user - not via RFID chip
- Large selection of pre-validated resin profiles as well as ability to create custom profiles

ACCUFAB CEL

- **6K resolution**
- Add printing capacity affordably and without compromise
- Small and large build plates/resin vats for maximum efficiency and flexibility
- Free slicing software with no annual license fees
- Free add-on modules for model, bite splints and crown design
- Resin vat lifespan controlled by user - not via RFID chip
- Large selection of pre-validated resin profiles as well as ability to create custom profiles
- Print chamber temperature control/heater

Available Q4 2025

ACCUFAB F1

- DLP projection system
- 1920 x 1080 resolution
- Accuracy +/- 25um
- Dual heating technology significantly reduces printing time and improves printing success rate
- Intelligent sensing: the printing platform, resin tank, and optical machine feature automatic detection to monitor missing components or residues in real-time
- Free slicing software with no annual license fees
- Large selection of pre-validated resin profiles as well as ability to create custom profiles

3D PRINTING ACCESSORIES

1-888-344-4424

LIGHT CURING

SHINING 3D FABCURE 2

- LED Power 70W
- Large curing chamber
- Built-in heater
- Pre-set curing times by resin type/brand
- Programmable for custom strategies

SHINING 3D FABCURE 1S

- LED Power 30W
- compact footprint where space is limited

PHROZEN CURE+

- Flash curing
- Heated enclosure
- Broad wavelength range to ensure optimal curing for a range of materials
- Programmable for custom strategies
- LED power 150W

WASHING

PHROZEN WASH +

- Two compartments for simplified two-stage cleaning of printed parts
- Programmable washing cycles
- Designed to accommodate build-plate from XL 4K printers or place printed parts into reservoirs

SHINING 3D FABWASH

- Pre-programmed 'wash and dry' cycles
- Single compartment with 9.5L capacity
- Designed to accommodate build-plate from Accufab L4D, CEL and D1S printers or place printed parts into reservoir
- Automatic part removal from Accufab L4D, CEL and D1S build plates

SCANNERS

SHINING 3D
DENTAL

DESKTOP SCANNER

SHINING 3D DS-EX PRO H

- **Scan accuracy 8 μ m**
- **Dual 5.0 MP cameras**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Seamless integration with exocad CAD
- Multiple scan modes
- Supports full-size articulators and impression scanning

www.denplus.com

*Visit our web site for

SHINING 3D DS-EX PRO

- **Scan accuracy 10 μ m**
- **Dual 1.3 MP cameras**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Seamless integration with exocad CAD
- Multiple scan modes
- Supports full-size articulators and impression scanning

SCANNERS

1-888-344-4424

INTRA-ORAL SCANNER

SHINING 3D AORALSCAN 3

- **Wired OR Wireless**
- STL, OBJ and PLY scan file formats
- Free scanning software with no annual license fees
- Two scanner tips sizes. Tips autoclavable up to 100 times.
- Software includes free model creation and temp design modules

SHINING 3D AORALSCAN ELITE IOS

- **Wired OR Wireless**

The Aoralscan Elite is the world's first device to integrate both intraoral scanning and photogrammetry into a single unit. The device functions as a standard intraoral scanner (IOS) for capturing images of dentulous cases, allowing for detailed scans of teeth and oral structures. Additionally, it serves as a photogrammetry system, which is used to accurately record the position of dental implants in edentulous cases.

FACE SCANNER

SHINING 3D METISMILE

- 10 seconds to acquire complete facial scan
- Free scanning software with no annual license fees
- STL, OBJ and PLY scan file formats
- Aligned scan files easily imported into all CAD design software
- Optimized for exocad CAD

PMMA DENTURE BASE

DenPlus Estética Base (98mm) – pink veined
